These three local Leagues were invited by the S.C. League’s Healthcare Director to hold in the Pee Dee a free public program to learn and discuss healthcare – local, state, and national.

A panel representing four points of view – American Association of Retired People, SC Hospital Association, Health Marketplace Insurer, citizen representative - will present their positions and experiences with the audience then invited to question and comment.

League locals will have information displayed as you are welcomed to this public forum.
